

How to save our WIX Newsletters:

1. Click on the link to open in your browser.
2. Right click your mouse.
3. Hit "Save as"
4. It will open in a "Webpage Complete" address (html) document
5. Hit "Save"
6. Watch your download button (mine is at the top of my computer screen); it will take a few minutes to download and save to your computer drive.
7. When it is finished, you will find it in the file that you saved it in. (I put mine in "Newsletters" "March" file.
8. It will always open in a browser file but it is saved on your computer.
9. If you want to print it out, do it as usual; however, you'll find that it may print with lots of spaces in some areas!
